

Dr Kidwell is the best Dentist I have ever seen. He only performs work that is absolutely necessary, which ends up saving you money in the long run. His staff is extremely friendly and helpful as well. I have recommended him to others in the past and will continue to do so. Thanks and keep up the great work!!

I was there for a 6-month check up. The dental technician did a good review of my medical information, took blood pressure and did a very good job with the dental work. She also reviewed a dental tool and technique which is an activity that I should do at home routinely. She's very thorough and she has a gentle touch. The staff at the desk was thorough and informative with the paperwork and insurance document.

I love Dr. Kidwell and am so appreciative of the amazing teeth he created for me after I had major periodontial work with a doctor he works with often. He created my new teeth and bridges for the implants and they are beautiful. I had my teeth cleaned with Natalie this morning and she is an excellent hygienist. I always request her for my cleanings. I highly recommend this dental practice to my friends & co-workers. They're the best!

I have a lot of boring stories my sons tell me I repeat so I'm sure she has heard them all but listens as if they are new. Also, provides great feedback on my questions and has suggestions to help me do my part to keep my teeth healthy. Everyone is top notch including the wonderful girls up front. John is the weak link in this operation. (just kidding)--John's the best and I know I'm getting his best all the time. When John is out Derek will does the same and makes me feel like an old friend too. Blessings to you all ~Tom

Everyone I met was polite, courteous, professional and I felt that I received excellent dental treatment. This practice shares my philosophy: healthy teeth and gums that get the job of eating done without unnecessary cost for cosmetic services. I highly recommend this practice, based on one visit. They also came highly recommended by a practice that I have loved for almost 4 years in Austin.

I've gone to this practice since I was 7 (am now over 50), using all three dentists over the years. They're worth the drive (I keep

moving further out). The dentists/hygienists/staff are also patient & kind w/ my mom, who has advanced Alzheimer's. They also run a tight ship & are on time for appts (essential when I bring Mom), & have carefully handled any dental issues I've had (ditto for my dad & adult kids). This practice (dentists/hygienists/staff) is five-star all the way.

Drs. Kidwell and Albus are the finest dentists I've encountered in my 60 years. Their professionalism is well known. It's the intangibles which make them such standouts. One gets the feeling revenue is secondary to absolutely the best in patient care. I've been a 30 year client and am fully intent on transitioning my teenage children from pediatric provider to

these gents. Also, their support staff (front desk and hygienists) are the very best folks in the business. Heart & soul.

However, I love coming to this practice because everyone is nice, professional and have a great sense of humor. Quality of service these days has to be impeccable as there are many options in whatever field you are in. Kidwell and Albus have put this all together for years and are truly at the top of their game from start to finish. They make the patient experience the best it can be. Blessings---Tom Koons

I was treated with the kindness and courtesy that I have always enjoyed when visiting this office. Dr. Kidwell saw me promptly, recommended the best treatment for my problem; the office staff arranged for me to immediately see an endodontist for a

root canal; afterward I came directly back to Dr. Kidwell, who made time to prep my tooth for a temporary crown and fit it; also taking impressions for the permanent crown to follow. All done swiftly and professionally in the same day, eliminating the need for multiple visits. Excellent care from dedicated professionals.

I went in for a normal 6-month check-up. Kelly and Dr. Kidwell closed in on a food trap issue that in fact was a developing cavity. Dr. Kidwell diagnosed, cleaned out, and filled it via a composite filling on the spot. Amazing. My nagging food trap is gone, and my filling feels great. Thanks so much!

I was seen promptly at my appt. time yesterday. The appt went very well and there was no time wasted. One could tell that my comfort was very important to staff throughout the procedure and there never was any pain involved. Dr. Albus explained my options in detail and continued to explain what he was doing and why he was doing it during the dental work. I could not have been more pleased. I might add that all of my previous appointments and procedures with Dr. Albus and his staff have always gone as smoothly as it did yesterday.

I went in for routine teeth cleaning. The reception was incredibly friendly, the technician was timely, thoughtful and very professional. Dr. Kidwell stopped in to check on me prior to departing. He was very thorough in his review regarding the current state of my teeth and gums and did a great job of sharing what I was doing well, what I might consider doing to continue having strong teeth and gums.

I was seen promptly. The pleasant dental hygienist took X-rays and then did a very thorough, painless cleaning job. Dr. Kidwell came in immediately afterward, having already reviewed my X-rays, to sum up his findings. The office help was competent and friendly. The fee was reasonable. What more can a patient ask? I happen to be a very fussy and difficult dental patient and find nothing to criticize and much to praise.

Very professional and excellent dentist. I had an existing cavity repaired as it had increased. It was in a difficult location at the gumline of an inside of one of my back teeth. He used a specific drill to accomplish a perfect result. I had several shots of novacaine as I am very sensitive. The numbness lasted longer than expected and hence my cheek hurt a lot from the needle. I called their office and the girl was most helpful and put my concerns at rest. Told me what to do and what to expect. Today I am fine. Great staff and would recommend this dentist in the future.

They are excellent dentists who care about the health of my teeth. Also, they are also always available in an emergency. Example: Yesterday I called to say that something was amiss with a back molar. They had me come in immediately, determined that I had broken the tooth, put a patch on it, and scheduled me for a permanent fix within two weeks.

We have been coming to this clinic since the early 1960's first to see John, Sr. then Junior and now Derek. I have brought my ex-wife there (along with our two sons) and also my current wife (and her daughter) and also referred a great many people to join us there. I can't say that the experience was/is fun but it is a great group of professional people and we all have the utmost faith in their ability to do what is right for us.

3 points of observation. 1. John Kidwell. He is so cool he ought to be pickled. Plus he has been a friend forever, despite the fact that he was a student of mine at Jesuit High. 2. Kelly is a delight. In fact, I have so much fun chatting with her that I think I get her late for her next appointment. 3. The two girls at the entrance. I already told them, but I love their sparkling hospitality when I walk in the door. I am greeted by "Good Morning" by both of them and it sets the tone for the whole time I am blessed to be there.

Everyone is great here, and their work is also. So I will speak instead to a minor issue now resolved! I am a longtime patient, and I have long disliked the "squirt and squeeze" rinsing equipment that all of modern dentistry went to some years ago. It is awkward and uncomfortable for the patient and never rinses completely. One always ends up swallowing bits of gunk and liquid. I realize the tubes make for easier cleaning for the staff, but the old-fashioned "sip, swish, and spit" works much better for a patient with reasonable mobility. I was VERY happy to have that option back on the new equipment--thank you!!!

The entire staff is very professional - yet personable. You get the feeling that they care about you as a person ... not just a patient. You can be confident that the service you get ... whether it's a routine visit for a cleaning or a major procedure like getting implants and crowns, you will be treated with respect for your time, your comfort, your overall health and well-being, and your personal satisfaction. The treatment I've

experienced with Dr. Albus and his staff far exceeds the care of my teeth ... it has improved the quality of my life..

After not being happy with my current dentist, I got a recommendation to try Kidwell & Albus. That was over 10 years ago, and I could not be happier! In that time, I've had many appointments and NEVER had any type of negative experience with the service or any of the staff there. Dr. Kidwell has been my primary dentist, and Karen my primary hygienist. They are both wonderful. They are friendly and very professional. I have never felt any type of push to do anything that might be unnecessary. I am grateful Kidwell and Albus was recommended to me, and for anyone looking for a good honest reliable dentist I would do the same in a heartbeat!

I normally don't write reviews but Dr. Kidwell and his staff are amazing. Dr. Kidwell will only perform work that is absolutely necessary. This is a breath of fresh air. My other dentists were always saying that we needed to do this or that. All of which, was probably unnecessary. I have actually spent more money fixing other dentists mistakes than new problems. The staff is just as great as the Dr. They go out of their way to make you feel comfortable. Thank you!

I've been going to Dr. Kidwell for a couple decades now. They run a very efficient shop and everyone is so nice. I like the fact they keep all of my records (Xrays, exams, etc) in a digital system that allows them to view my teeth over time. If they spot something of concern they take note and look closely at it on my next cleaning to see if it's something that needs to be taken care of before it grows into a bigger problem. We moved way across town but I still drive back because I like them so much. I highly recommend them to my friends & family.

Very confident of Dr. Albus' work. His hand skills are incredible (possibly from his 20 years of working with patients). I ask a ton of questions because that's how you can tell which doctors really know their stuff. And Dr. Albus always comes back with well considered and insightful answers. Also, Marla and Annie at the front desk are great! They patiently and graciously help us work through our scheduling goofiness and the maze of the insurance process, sometimes calling us back multiple times. Thanks!

They went a long way in making sure I was not anxious and I appreciate that... plus I really appreciate the time the doctor took in explaining it all to me including prices. Most doctors do not want to deal with that part. Next week is my first procedure.... and that's a scary thought but I am going to do it!!

I could not recommend a dentist more highly. Dr. Kidwell saw my daughter immediately(literally) from her dentist's referral. We were an emergency appointment and he took care of a serious, involved dental issue right away and stayed late to make sure she was treated and well cared for. We are grateful for the care we received from Dr. Kidwell and his entire team.

I am a dental coward and hate to have people putting pointy things in my mouth. That said, there's no question that Natalie, the ferocious dental hygienist, did an excellent job. She minimalized my discomfort and was responsive to my concerns while making sure my teeth and gums were as clean as possible. As is usual in this office, the equipment she used was superior to similar equipment I've had used on me in the past. If a little extra time had been taken to make sure I know how to floss under my bridges, the visit would have been perfect. No one has ever told me to do this and I'm not at all sure I know how.

The service with Kidwell & Albus Dentistry is and always has been excellent. I have been a client since 1986. Unfortunately, I had to move to a location 175 miles away, so I tried other services for almost 2 years. Finally, I decided the drive was worth the difference, so I now drive to Dallas to receive the benefits of the service with Dr. Kidwell. Everyone in the office is always professional and as accommodating as possible, to assure timely appointments and services. Dr. Kidwell has had to rebuild a front broken tooth over the years and exhibits an artistry with his work, as the final result is not detectable. Two years ago I broke this tooth again. I allowed another dentist to do this emergency repair. The tooth was too large at the bottom and came apart within a month. I called and drove to Dallas to have Dr. Kidwell repair it again. I have had no problems since. It is easy to rate Dr. Kidwell and his associates with excellence.

Excellent cleaning by my dental hygenist, warm and friendly front office staff. Love Dr. Kidwell and his assistant, and I really love my 10 new upper teeth that had to be replaced due to severe root resorption. The process took one year to complete

in conjunction with my periodontist Dr. Tom Wilson. The implants and permanent bridges are beautiful. I'm a very happy patient and highly recommend Dr. Kidwell and Dr. Albus' office.

Drs. Kidwell and Albus are fantastic. All their staff personnel are caring, kind, accommodating and very professional. They have managed on occasion to work in an appointment for me, even with a full schedule. I broke a tooth on a Saturday afternoon some years ago, and when I called Dr. Albus, he came to the office to meet me. I didn't realize until he arrived that I had summoned him from the golf course. This is the kind of care and concern you may expect.

This was my first dental implant. We started on time, and the work was all done very professionally. When the bone was found to be too spongy for the original plan, an alternative approach was found that appears to work well.

I had my first filling from Dr. Albus and it was absolutely seamless. I felt no pain, even when given the injection. He explained everything he was doing while the procedure was taking place and we were through in no time. I have had alot of dental work in my lifetime, beginning at the age of 6, and this was the best experience I have ever had. I am the daughter of an orthodontist from another part of the country and believe me, I can distinguish good quality care versus bad quality care. My previous dentist passed away, which is why I came to Dr. Albus in the first t place and it has been an outstanding choice. The staff is extremely professional and the office is nice but not over the top. He's probably on the high end of the fee schedule and they do not take insurance (you file it yourself), but the quality is well worth it.

I would like a different hygienist next time. She got water all over me joking that I was getting a facial. My teeth did not feel much cleaner after I left. I prefer to have the tarter scraped off with the hook than the pick than the water which was not effective. I also got Colgate toothpaste when I told her I had to use Pronamel. I really like both of the dentists there!
